This agency has reviewed your request dated January 26, 2010 for voidance of the above-referenced permit. According to your letter the permit was to cover a one time discharge from hydrostatic testing that was completed on October 14, 2009. Our office concurs that in this case this NPDES permit is no longer required.

Therefore, National Pollutant Discharge Elimination System Permit No. ING670064, issued August 14, 2009, is hereby revoked effective 18 days from the mailing date of this letter.

Any party adversely affected or aggrieved by this decision may appeal by filing a petition for administrative review with the Office of Environmental Adjudication (OEA) within eighteen (18) days after the date of mailing of this letter. Any appeal request must be filed in accordance with IC 4-21.5-3-7 and must include facts demonstrating that the party requesting appeal is the applicant, a person aggrieved or adversely affected by this voidance or otherwise entitled to review by law. Pursuant to IC 13-15-7-3, this decision shall remain in effect pending a decision on any appeal that has been timely requested under the provisions of IC 4-21.5. The address is:
